Art Unit: 1742

1. The Examiner has carefully considered Applicant's Response of 1/17/06. The Examiner agrees with Applicant's argument that the prior art does not teach or suggest the mixed powders formed with W and W-Cu powders which is further infiltrated with copper. However, as discussed with Applicant's representative in a phone conversation of about 3/30/06, the Examiner, in reconsidering claim 6, finds that claim indefinite, in that it is unclear if a method or article is being claimed. The Examiner notes that the presentation of the claim is to a further method claim, and would be looked to as such in considering an election by original presentation.

2. Claims 1-5 are allowable. The Examiner finds that the prior art does not teach or suggest the mixed powders formed with W and W-Cu powders which is further infiltrated with copper.

3. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

4. Claim 6 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

A claim which intends to claim both a product and a method is indefinite since a claim may only be directed to one statutory class of invention.
